Dear Pongruk Sribanditmongkol,

Singapore's education system consistently earns high international ratings. In the past decade, artificial intelligence has revolutionized Singapore's education. Singapore universities are leading in AI-driven tools that personalize the learning process, boost engagement, streamline resources, and evaluate teaching methods. These tools also foster innovation, enriching the learning experience.

The Trend and Training company is pleased to invite you on a short-term, professionally-focused trip:

SINGAPORE: VISIT to UNIVERSITIES and to EXHIBITION OF EDUCATIONAL TECHNOLOGIES (November 2-7, 2025)

Participation in the trip provides an opportunity to **learn**

- What **innovative solutions** do tech developers bring to universities **to overcome the constraints of traditional education**?
- How do Singaporean professors **collaborate with students to enhance teaching and learning technologies**?
- What **extraordinary possibilities** arise from this partnership?

IN THE PROGRAM OF THE TRIP

We will tour **Singapore's leading universities**.

We'll **meet with colleagues** to explore how innovative methods enhance education.

We'll identify shared interests and **exchange our most effective practices**.

We'll explore **prestigious university campuses** and assess their role in creating a vibrant learning environment.

We'll **visit the largest in Asia exhibition in education, HiTec**: more than 200 exhibitors from Singapore and other leading countries will participate in the exhibition to demonstrate how they are changing education. 100+ teachers will make presentations.

You will have a unique opportunity to **experiment with the latest technologies**, attend **live demonstrations and get new ideas and opportunities** for the development of your university.

Registration will be done on our website at https://fr-conferences.com/professional_tours_universities/. Please feel free to email us at contact@fr-conferences.com with any questions about registration.

The registration fee is **€2200** per person. Special group discounts are also available.

I would appreciate it if you could please **inform the relevant specialists and assign employees to participate**.

We also wish to draw your attention to other highly sought-after professional trip with **very limited places remaining**:

EXCLUSIVE AI RESEARCH TRIP: BEHIND THE SCENES OF THE UK'S TOP UNIVERSITIES (October 13-19, 2025).

Focus: This specialized trip provides an unparalleled look into the **cutting-edge AI research** being conducted at the United Kingdom's most prestigious universities. Participants will engage directly with researchers, explore advanced labs at the universities, and discuss the future of AI research and its societal impact.

Please find attached the trip programs.

I look forward to seeing you at the events!

Yours faithfully,
Director
Trend and Training, France
Yulia Datsko

SINGAPORE'S EXPERIENCE

NOVEMBER 2-7, 2025

VISIT LEADING UNIVERSITIES & EDTECH ASIA 2025 EXHIBITION

Singapore has earned its reputation as a global education hub, often referred to as '**the mecca of university education.**' With the highest concentration of top-tier academic institutions and educational leaders worldwide, Singapore's system stands out for its **personalized learning approach and interdisciplinary focus.** What truly sets it apart is the seamless integration of real-world business projects into curricula, preparing students for immediate professional success in high-tech economy.

For the past three years, Singapore's education transformation has been guided by the groundbreaking **EdTech Masterplan 2030.** This initiative has made artificial intelligence an integral part of daily learning - equally accessible to teachers, university students, and even schoolchildren. The results speak for themselves: **AI-enhanced lesson planning**, data-driven optimization of teaching effectiveness, and continuous development of innovative educational technologies that push the boundaries of what's possible in modern education.

WHY SINGAPORE?

- Top-ranked universities (QS Top 10 student cities) with industry-integrated programs.
- AI-powered education: From schools to universities, AI optimizes teaching and personalizes learning.
- Real-world tech projects: Students co-develop AI solutions with global corporations.
- Future-ready skills: Interdisciplinary approach prepares graduates for high-tech economy challenges.

HIGHLIGHTS OF THE TRIP:

Exclusive campus tours:

Singapore Institute of Technology (SIT): Where 100% of students work on real industry projects

Republic Polytechnic (RP): Pioneer in problem-based learning with AI integration and others

James Cook University Singapore: Specializes in AI, data science, and cybersecurity.

EdTech Asia 2025:

150+ exhibitors including Lenovo, Microsoft, Google Education

Live demos of VR classrooms, adaptive learning platforms, AI tutors

Networking opportunities:

Roundtables with Singaporean educators

Best practice exchange sessions

Key discussions:

AI + Students: Boosting productivity with GenAI

AI for Teachers: Cutting course prep time by 40%

Hybrid learning: Engaging digital-native generations

WHO SHOULD ATTEND?

- University administrators and deans
- EdTech specialists and innovators
- Professors seeking digital transformation
- Government education policymakers

Register on-line:

fr-conferences.com

+(33 2) 52 86 01 16

PARTICIPATION FEE: €2,200

GROUP DISCOUNTS:

15% off for 2 participants

- Single accommodation in a 4-star hotel
- Daily breakfast, 2 lunches and 2 dinners
- Transportation for university tours, exhibition visits, and business meetings
- Dedicated representative to assist you throughout the trip

OCTOBER 13–19, 2025

For University Leaders, EdTech Innovators & Policymakers

Exclusive AI Research Trip: Behind the Scenes of the UK's Top Universities

Join a select group of global leaders for behind-the-scenes access to **groundbreaking AI research** at Britain's top universities, with networking at **New Scientist Live 2025**. The UK is home to 4 of the world's top 10 AI universities (QS 2024) and invests £1B+ annually in AI innovation.

WHY JOIN THIS UNIQUE EXPERIENCE?

- **Go beyond screen** – Get **exclusive access** to labs, researchers, and startups driving AI breakthroughs
- **Bring actionable insights** back to your institution – from ethics to funding strategies
- **Network with 50+ global peers** in a curated group (number of participants is limited)

WHAT YOU'LL GAIN

Hands-On University Visits

- **UNIVERSITY OF WESTMINSTER**
Focus on AI research and industry collaborations
- **KING'S COLLEGE LONDON**
Explore cutting-edge AI labs and academic programs
- **ROYAL HOLLOWAY, UNIVERSITY OF LONDON**
Discover AI and data science initiatives
(+ other leading universities)

New Scientist Live 2025

- Private tour of Europe's biggest science exhibition
- Meet editors & researchers behind breakthrough tech

TAKE BACK TO YOUR ORGANIZATION

- **Trends:** Latest in generative AI, edtech tools, and responsible AI frameworks
- **Connections:** MoU templates for international collaborations
- **Funding Intel:** UK/EU grants for joint research projects

WHO SHOULD ATTEND?

- **University VPs/Deans** scaling AI programs
- **EdTech CEOs** seeking R&D partnerships
- **Government teams** designing AI education policies

PARTICIPATION FEE: €2,200

WHAT'S INCLUDED:

- Single accommodation in a 4-star hotel
- Daily breakfast, three lunches, two dinners
- Transportation for university tours,
- Exhibition visit, and business meetings
- Dedicated representative to assist you throughout the trip
